2025 ANNUAL CONFERENCE

COMMEMORATING 10 YEARS OF IMPACT: HFN HOSTS HEALTH WALK & BLOOD DONATION DRIVE

As part of activities marking the 10th Anniversary of the Healthcare Federation of Nigeria (HFN), we proudly organized a Health Walk and Blood Donation Drive aimed at raising awareness about Nigeria's persistently high Maternal Mortality Rate and promoting the life-saving importance of voluntary, safe blood donation.

This impactful initiative was carried out in collaboration with the Lagos State Blood Transfusion Service (LSBTS), whose partnership was instrumental in ensuring the success of the blood donation efforts.

Together, we sought to highlight the critical role that access to safe blood plays in reducing preventable maternal deaths across the country.

Participants, including healthcare professionals, partners, and members of the community, embraced the opportunity to walk for wellness—covering nearly 2 kilometers from the take-off point to our destination. The walk served not only as a fitness activity but also as a symbol of our collective journey towards a healthier Nigeria.
